Drawings & Specification

In the Notice of Drawing Inconsistency with Specification mailed May 12, 2006, it was noted that in the drawings filed February 19, 2004 there is an inconsistency between Figure 2 contained in the Drawings and Figures 2A and 2B listed in the Brief Description of the Drawings. Figure 2 is accurate as filed, the Specification is incorrect. Accordingly the Specification has been amended to comply with the Drawings. No new matter has been added.

In addition, Applicant inadvertently omitted the Governmental Rights clause from the Specification when filed. The Specification has been amended to provide the proper Governmental Rights clause. No new matter has been added.

Respectfully submitted,

Eric A. Gifford
